COVID Update

The delta variant has changed the landscape, especially for unvaccinated individuals. It is highly transmissible even from vaccinated individuals who may experience mild or no symptoms, BUT at the same time can still spread virus ([to verify the veracity of this claim, click on this link](#)). Because of this the CDC has changed it's recommendations.....to masking of both vaccinated and unvaccinated individuals when inside.

The Chico Bonsai Society is concerned for the health of all our members. Out of respect each of us has for one another, the CBS asks that all members and visitors follow CDC guidelines and wear a mask when attending our meeting.
